

Instructions Installation and Programming

PKF

Deadbolt Latch Must Be Able To Operate Smoothly With Door Jamb, Strike Box, And Strike Plate, After Installation.

A. Place the latch in an Unlock position. Turn the turn piece to the opposite direction from the door edge in unlock position. Install the outside cylinder head, turn the flat driver bar perpendicular to the ground, insert through cross-hole on the latch, then connect to the turn piece.

B. Secure all the mounting screws then test for a smooth operation, if jam, readjust procedure A to ensure a complete smooth operation.
